

## Collaborative Teacher Seminar

### Objectives:

Support and monitor growth and development of the intern's knowledge and skills as described within the framework of the MSU Program Standards

1. **Model** and **Communicate** skills for a liberal education.
2. **Model** and **Demonstrate** knowledge of subject matter and how to teach.
3. **Model** and **Demonstrate** ability to work with and respect all students.
4. **Demonstrate** and **Maintain** an organized classroom.
5. **Demonstrate** ability to use technology.
6. **Demonstrate** working and learning within the school environment.
7. **Demonstrate** communication with parents and community.
8. **Demonstrate** reflective learning as a professional.

Demonstrate and model professional behavior that supports the professional standards through the evidence of lesson planning and appropriate and timely communication.

Allow opportunity for the intern to observe, study, interact, reflect, plan, evaluate and communicate in a manner that assures coherent and continuous learning opportunities.

Support for the collaborative teachers' monitoring and assessing the growth and development of interns will be provided through a series of six CT seminars throughout the school year. The seminars will feature collaboration and problem solving techniques.
