8. Explaining Evaporation and Boiling	T-87
9. Explaining Condensation	T-97
List of Materials by lesson	T-111
Appendix: Transparencies for Copying	T-115

### ORGANIZATION OF PAGES IN THIS UNIT

Student Pages	Teacher's Book
Reproductions of Science Book Pages are always on the left side.	Pages with information for Teachers are on the right side.

Each Lesson Cluster in the Teacher's Guide is composed of the following parts:

- I. Cluster Introduction.  
Please read the introduction first. It contains essential information to help you understand and use the materials.
  - A. Lesson Cluster Goals and Lesson Objectives
  - B. Key Elements of a Good Description or Explanation
  - C. Students' Conceptual Learning
  - D. Conceptual Contrasts
  
- II. Student Text and Accompanying Comments to the Teacher
